At Redwood we quietly shatter barriers to the inclusion of people living with disabilities.
Redwood's Mission:

Redwood guides children and adults with severe and multiple disabilities to achieve independence and reach their highest potential throughout their lives, by providing enriching educational, therapeutic, and vocational services.
Winston has made amazing progress since coming to Redwood 8 years ago for long-term speech and occupational therapy. Diagnosed with autism spectrum disorder at 2½ years old, Winston was non-verbal when we first met him.

But at Redwood, we focus on what people with disabilities can do. Where others may have seen what Winston could not do, our therapists saw abilities to be nurtured.

Today, 10-year-old Winston has clearly benefited from Redwood’s approach. He reads at grade level. He makes the honor roll. He joined a sports team.

Our work with Winston is ongoing, though. For example, he seems to have no filter when it comes to saying what he really thinks. So, our therapists use an approach called super flex social thinking. This helps Winston develop more awareness of his behaviors. He also participated in an 8-week group where he practiced social skills in a safe environment.

It's no wonder his mother, Becca says “gratitude” is the first word that comes to mind when she thinks of Redwood!
In 2019 Redwood Served:

- **464** Children in Children's Services
